Annual Report Shows Bank of Montreal In Usual Strong Position

Bank Has Total Assets of \$768,535,908 to Meet Payment of Liabilities to the Public of \$692,218,818. Leaving An Excess of Assets of \$76,317,090 — Liquid Assets of \$492,526,981 Are Equivalent to 71.15% of Liabilities to Public — Earnings For Year Substantially Below Previous Period — At \$4,005,153 Are Equal to 5.32% of Capital, Rst and Undivided Profits

Readily maintaining its usual strong position, the Bank of Montreal is forwarding to shareholders, the annual statement for the fiscal year to October 31st.

The summary of the report which is issued in an understandable form and appears in this issue, shows the Bank had total assets of \$768,535,908, to meet payment of total liabilities to the public of \$692,218,818, leaving an excess of assets amounting to \$76,317,090.

While total assets are practically unchanged from a year ago, there has been an increase of over \$50,000,000 in the holdings of high grade securities and a corresponding decrease in current loans, due to the lessened requirements of the Bank's customers under prevailing trade conditions. As a result of this change, liquid assets are up to \$492,526,981, equivalent to 71.15% of liabilities to the public, as against \$439,768,506 a year ago, equal to 63.46%. Included in liquid assets are cash holdings of \$78,683,217, or 11.36% of public liabilities.

Profit and Loss Account

Profits for the year are substantially lower, due to the smaller volume of business offering and the lower rates of interest on securities. On the other hand, distribution to shareholders is well below that of previous years, due to reduction in dividend rates. After taking care of all distributions, the total at the credit of profit and loss amounted to \$1,585,451.

As was to be expected, the largest proportion of liquid assets are in government and other bonds and debentures, the total of them being \$316,967,375. The greater portion of these securities mature at early dates. These holdings are up from \$266,729,664 at the end of the previous year.

The call loans in the same way showed a tendency to increase, call loans in Canada being up to \$7,607,169, from \$5,157,690, while those outside of Canada were \$36,354,280, as compared with \$20,071,135 a year ago.

Current Loans, Contract

As opposed to this situation the customers of the Bank have not required as much accommodation as under more normal trade conditions. As a result, current loans are down to \$251,885,262, from \$302,931,269 last year.

Total profits were \$4,005,153, equivalent to 5.32% on the combined capital, rest and undivided profits. They are down from \$4,663,100 a year ago, a decline of approximately \$650,000. Out of the profits there was set aside for dividends to shareholders \$3,060,000, as compared with \$3,960,000; provision for taxes, Dominion government \$508,558, and reservation for bank premises \$100,000. After all deductions an addition of \$336,594 was made to profit and loss account.

Literary Society

An intensely interesting study of Hugh Walpole and a review of his novel "Rogue Herries" occupied the time of the Ladies Literary Society when they met November 23rd at the home of the president, Mrs. Vilo Snow. The sketch of Walpole's life was given by Mrs. Lillian C. Roberts and the review by Mrs. Zetella Taylor. The program for 1934 was presented by the chairman and accepted unanimously. A dainty lunch was served by the hostess. Special guests included Miss Emma Walscott, Mrs. C. D. Compton, Mrs. J. C. Finley, Mrs. G. W. Leech, Mrs. C. F. Tollestrup, Mrs. L. D. King, Mrs. H. Witbeck and Mrs. Marie Henniger. The next meeting of the society will be held December 28th at the home of Mr and Mrs. J. Wm. Evans when the members will entertain their husbands at the annual party.

MART KENNEY COMING

Hailed by newspapers in many western cities as "Western Canada's finest dance orchestra" Mart Kenney and his boys from Vancouver will make their appearance in Raymond, Monday at the Opera House. This well known seven-piece orchestra comes to town under auspices of the Raymond A. A. A. In addition to playing many current dance hits "straight" in their own smooth and syncopated style, Mart and his merry men will feature several of the "trick" musical and rhythmic effects which have helped the variety and appeal of their dance program. Dancing commences at 9 o'clock, and the first novelty number is featured at 10:30.

NEW SCALE OF RELIEF FOOD ALLOWANCES

Edmonton, Nov. 28.—(C.P.)—The Alberta government shortly will submit to cities in the province a scale of food allowances for relief cases, based upon the scientific findings of dietitians in the universities of Alberta, Saskatchewan and Manitoba. While no detailed information as to the schedule was released it is understood that the proposed schedule is about eight per cent. less in terms of money and calories than Edmonton's present schedule—\$3 a week for man and wife and 75 cents per week for each child.

Moses Fromm and Paul Schneider were going to Wrentham last week, and as the car needed the radiator filled, Paul got out to get some water. He slipped on a wet culvert, plunged into the icy water, neck deep, and then decided to abandon the trip and returned home for dry clothes. No doubt the shock was rather severe.

APPRECIATION

The Taylor Stake Primary Board desire to thank all who donated and who supported the Bazaar and Poultry Sale held last Saturday, and helped to make it such a financial success.

Cyclone Hits Town and District

A young cyclone hit Raymond on Sunday, and left considerable damage in its wake, and made occupants of the O. H. Snow block wonder if the end were here for some of them.

About the country hay stacks had the tops blown off some of them, and hay was scattered to the four winds. Fences with tumbling mustard against them were blown over, many coops were tipped over, and the wind had a real and small outbuilding, not so time. Jas. Hawkins said it blew so hard out south, they thought it was going to blow the ridge away.

At the Sugar Factory a section of the Boiler House roof was loosened, and this was lifted and dropped several times while the wind was at its worst. Luckily it did not blow off, but it was feared it might. Frank Hicks had just finished a chicken coop on his place south of the canal, and the wind tipped it over, and spread the four walls out, and left it lying there on the street running east past A. D. Woolley's, the telephone line was blown over, about ten poles going down in a row, and put the lights out of commission for awhile in that part of town.

The main fury of the storm centered on the O. H. Snow block, on Broadway, and damage to the extent of about \$800 was done here. Chimneys were blown over, about one-third of the flat roof was taken off and deposited in the middle of the street in front. The rear wall of Stone's Service Store room was blown in, and the face of the building was reported as yet.

swept off in several places. Inside the plaster was knocked off the ceiling in several places, and one could look out to the blue sky. People who watched the roof go into the air, and heard it come down with a cannon like report, said it was the queerest sight they had ever witnessed. The falling roof snapped off an electric power pole in front, and the pole and heavy transformer dropped between two cars that were parked on the street, where there was just enough room for the transformer to fall. It was fortunate indeed that neither car was hit. The broken pole disrupted the power along the street, and those depending on power to carry on their work were forced to take a holiday most of the day Monday, while repairs were being made. There was a large crew of men at work Monday morning cleaning up the wreckage of the roof, and carpenters were busy re-laying it, and by evening the block again looked natural and was habitable.

Several roofs were started by the force of the wind, and we understand J. W. Evans was compelled to hold his down for a few minutes until it could be made more secure. Board fences were blown down all over town, and heavy wooden gates were unable to withstand the force of the gale. No official measurement of the velocity of the wind could be made, but Lethbridge reported 72 miles an hour, and it must have been that bad here when it was at its worst, just about noon. No injuries to persons have been reported as yet.

News Notes

H. Ostlund, K. C. of Lethbridge was a Raymond visitor on Thursday this week.

A good house was present for Gift Nite at the Capitol Wednesday, and the usual line of splendid gifts given away.

The story that started out with a sock that was heard around he world "Broadway Thru a Keyhole" Friday and Saturday at the Capitol.

Mr. and Mrs. Alma Betts and some of the family, were visiting old friends and neighbors in the Manyberries district over the week-end.

Three empty freight cars were blown from the tracks three miles east of Vegreville recently, and smashed to kindling wood. The cyclonic wind rocked the entire train, blew five cars off the track and wrecked the three completely. Hoboes riding in nearby freight cars of the same train escaped injury. When the engineer felt the train swaying he slowed down almost to a stop.

REED CANARY GRASS

(Experimental Farms Note)

How many Canadian farmers are familiar with Reed Canary Grass? It is safe to say that the majority have never heard of it although a few men have grown it for several years. As a matter of fact it may be found growing wild in many places, from coast to coast.

Reed Canary Grass is a tall growing perennial plant which is most at home in moist locations. Curiously enough it is also very drought resistant, remaining green through hot summer months.

The high wind Sunday stripped shingles off the High School building and scattered them for a block.

You can order your Church Section of the Deseret News from the Recorder office. The first order has gone in and other orders will be despatched just as fast as the money is paid in. Act now, if you want this supplement.

mer weather on soil which is very dry. It is not nearly so productive, however, as when moisture conditions are favorable.

The Division of Forage Plants of the Dominion Experimental Farm, has conducted experiments with Reed Canary Grass for many years. These tests have shown that it is a valuable grass to grow on land which becomes flooded with water for a time each season. Once reed canary grass is established it will last for many years. It spreads by underground stems and forms a good sod, but may be eradicated if one desires to do so.

Reed Canary Grass should be cut for hay about the time that the heads appear. Like stock like it and it has good feeding value. As a pasture grass it is very palatable and nutritious. Most of the seed supply at present is produced in Minnesota on part land. The grass is well adapted to this kind of soil. Seed production of Reed Canary Grass is a little difficult because the seed chatters readily making it necessary to harvest at exactly the right time. This is one reason why seed prices have been high. The seed has a peculiar appearance resembling one of flax. It is attractive in appearance, easy to handle and weighs about 30 pounds per bushel.

C. E. Kirk, Dominion Agronomist.

In and About the Sugar Factory

News Notes

Lawrence McNaughton, Cardston, spent Sunday here.

Jack Hervey was a Lethbridge visitor on Tuesday this week.

F. H. Ballou left Monday on a short business trip to Billings, Montana.

Earl P. Tanner, and his mother, were here Wednesday and called on Mrs. Vila Kenney.

Only Winchell could tell such a story as "Broadway Thru a Keyhole" at the Capitol, Friday and Saturday.

Quite a wind blew all day long Sunday in Cardston, but the telephone linemen reported only a little damage to repair following it.

Miss Mildred Nilsson is expected home this week, after a series of operations in Edmonton. She is improving nicely now and hopes are held out for a complete recovery.

Geo. L. Stringham, M. L. A., Glenwood was a Raymond visitor on Monday last. He stated that they had quite a wind in Glenwood Sunday but not strong enough to do any damage.

The question retail stores being compelled to close on Remembrance Day, a statutory holiday, is to be settled in the courts of Alberta, and the outcome will be awaited with interest by all concerned.

Deal Mendenhall says that the cyclone Sunday picked up his machine shed, lifted it over the granary, and scattered it around in the field 200 yards away. The windmill withstood the gale, but there were some anxious moments while the wind was at its worst.

Word was received, Wednesday of the death in Topeka, Kansas, of Fred Karren, old-timer of Wapaguth and district, who died of pneumonia and heart trouble. His funeral is being held Friday. Fred was known to people all over Southern Alberta, and the sympathy of the community goes out to the relative, in their sorrow.

The heavy wind storm which swept northern Alberta week before last, with a great deal of property damage, took one life, when a piece of the roof of a barn, blown away at New Norway, Alberta, struck Robert McIntyre, 24, on the head as he was opening a gate into a farm yard where he and companion were seeking shelter. He died the day following the accident in the Wetaskiwin Hospital.

G. E. Blake, Staff-Sergeant of the R.C.M.P. in Edmonton, has been named Warden of the Lethbridge jail, succeeding Warden Edgerton, resigned, the change taking place on Monday of this week. Warden Blake has had 26 years experience in the R. C. M. P. in a number of different positions, and comes to his new post highly recommended. He was chosen from amongst a large number of applicants.

Thieves robbed a general store in Gleichen on Thursday night, and made their get-away in the car of W. R. Howson, Liberal Leader, who was attending a meeting in that town. Police found the car in the ditch a few miles out of Gleichen, undamaged, the engine still running, and the loot from the robbery in it. It is, however, they have not found the thieves.

The Sugar Factory and surroundings is a hive of industry these days as it has been for the past two months, and as it will continue to be until the middle or latter part of January. The mill itself is having a good run, some trouble of course, with a breakdown here and there for a short time but nothing serious, and the work of turning the beets into sugar goes merrily on. The market is absorbing the usual amount of the new sugar, a good deal is going into the warehouse in the bags and one of the bulk storage bins is about full now of bulk sugar. These bins when full will contain about 4,000,000 lbs of sugar each so there is storage room for a good deal yet.

The sheds are still full of beets, and there remains quite a lot of sliced beets still in the fields, and these must wait for a few days before they are moved in. Most of the supply right now for the mill is coming from the huge silver pile, being forced onto an endless belt which conveys them to the flumes, and from there they are going into the washer. The beets are keeping in good condition, and only a few spoiled ones are found as the pile is being reduced by the constant shovelling.

Teams are waiting almost all the time for their turn in the pulp silo to load, and the first of the week, a section of the fence was taken down and the ground levelled off so that a couple more wagons could load at a time, without having to wait quite so long. Wolf Eberwein says that from October 15th to April 15th this pulp silo is the busiest place in Southern Alberta, bar none, and we helped him, because every day, and all day teams are there waiting in line to load with this feed.

The warm weather has lessened the demand for hay for pulp, but the teams are there all the time just the same, and when colder weather comes then there will be a real story on the silo, and the surplus will rapidly diminish.

We are glad to report that T. J. O'Brien is feeling better every day, and according to his own statement, "eating three square meals a day, and feeling better than I have felt for years." As soon as he gets fixed up following his operation he'll be back to work at the Factory again.

FATHER AND SON PAY WITH THEIR LIVES

Walking calmly to the gallows in Fort Saskatchewan jail in the early hours of Friday morning last, Kenneth and William McLean, father and son, paid with their lives for the murder on September 30, 1932, of Walter J. Parsille, farmer and back-seller, living in the south-eastern part of the province.

The son, William, was hanged first, not speaking after he bade his father good-bye in the death-cell. Twenty-two minutes later, Kenneth, the father, commenced his march to the scaffold, where after a good-bye to all present, the black cap was adjusted and Hangman Arthur Ellis sprung the trap.

The execution wrote finish to a successful man-hunt by the R.C.M.P., which took them to the state of Tennessee, where they succeeded in getting extradition papers for the two men and brought them back here to stand trial. One reprieve had been granted, and efforts were being made for a new trial for the son, William, when the Court of Appeals refused to interfere with the verdict, and the penalty was paid.

ONE MORE SUGGESTION

Our traffic guide is now equipped with big U's on each side, and is helping to make driving safe for the motorists. There are still some though, either through ignorance of the law, or neglect, or because they have not got used to the dead man yet, who cut the corner and do not keep to the right.

There was a near collision again last week between a couple of trucks. Two cars, at different times, one turning on to the gravel, cut the corner by the Broadway, instead of going around. And one car coming from the west, cut the corner by the old Bank of Commerce, instead of going around the traffic guide. Small things, you say, yes, probably insignificant. Still, it was only an obscured tail light and an extending gas pipe that cost four lives on the gravelled road recently. Only a small thing, and yet see what it cost.

We would not like to be accused of trying to dictate. But, when this dead man was planted, it was put there to try and make our roads safe. Now, we would suggest that a little more paint be used, and that the words "Keep to the right" be painted on all four sides of the standard, and then everyone would be without excuse in the matter of driving. For the careful and considerate driver, the signal was non-essential in the first place. But who can see through brick walls to tell what is coming out of his sight. As long as we go on cutting the corners, disregarding the traffic rules, and taking the law into our own hands, we would be better off without the standard, because we would have more room to swing and dodge in. But if we are going to make this piece of road safe, and remove the ever present danger from these blind corners, then we must decide to "Keep to the Right", give the man on the right the right of way, and drive on these turns and intersections so that our vehicle is always under control, and able to be stopped within a few feet if necessary. There is no sorrow that can restore life or limb, if someone is the victim of our carelessness, and caution and safety are free and easy if everyone makes up their minds to make these factors part of their driving gospel.

Let's all of us try it for awhile.

RESPECTERS OF PROMISES

A sadly gullible public already sees many of the dramatic personae of the old liquor system re-emerging. Promised a new order, distinguished by model control putting national prohibition to shame, the public is beholding old familiar figures stealing back onto the stage. There is the saloon in the costume of a tavern mincing from the wings; there is the florid-faced bartender long unpopular at the costing office; there is the distiller in a major role; there is the liquor advertisement plastered on the scenery, and there is the politician already suspected of collusion with the liquor interests.

It is hardly a new era. It is not a tomorrow; it is yesterday.

This was a widely predicted happening, hence little surprise is occasioned. It is not surprising, for instance, that the Women's Organization for National Prohibition Reform, led by Mrs. Charles H. Sabin, is to disband its national set-up, or that Nevada has turned back to the localities the whole problem of liquor control.

Because of the flagrancy of the betrayals, the efforts of certain opponents of prohibition to maintain their pledge, that the saloon would not return are all the more conspicuous. Mrs. Robert Lovett, head of the Massachusetts division of the Women's

Organization for Prohibition Reform, has led a gallant and perhaps successful contest against the tavernized saloon in her state.

Fred G. Clark, commander-in-chief of the Crusaders, proponent of repeal, is promoting the formation of an organization of young men called Junior Crusaders, dedicated to the cause of promoting efficient liquor control systems. Col. I. Reeves divisional head of the Crusaders, also has consistently sought to effect a liquor control plan for Illinois whereby only sales by bottle would be permitted.

Drys who are more intent on the promotion of national sobriety than in mere triumph for a particular legal system, are already discovered in these honest repealists powerful allies.

They can join forces against the saloon, against political corruption, against insidious propaganda designed to stimulate the consumption of hard liquor.

That the two groups would promote temperance through different methods does not matter now. If drys are as sincere in their demands for temperance as these honest repealists, they will bend every effort to promote the most efficient control system possible to further public safety and sobriety.—Christian Science Monitor.

The roof on the Sugar City Motors started to move Sunday afternoon, but with plank and nails, it was anchored down to the walls of the building, and rode out the storm safely.

News Notes

Fred Neilson, Harry Parker and McCue of Cardston were here Monday repairing the damage to the telephone lines that were disrupted by the storm Sunday. They had quite a job.

Six persons were killed in a collision between an automobile and a motor bus near Goshen, N.Y., last week-end. All the victims were in the car, the bus passenger escaping injury.

The Stake Primary Bazaar received very good support from the shopping public last Saturday, and nearly everything offered for sale was taken up by purchasers.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form, of the Bank's

ANNUAL STATEMENT

31st October, 1933

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$641,346,710.12
Payable on demand and after notice.	
Notes of the Bank in Circulation	33,819,807.50
Payable on demand.	
Bills Payable	258,578.04
Time drafts issued and outstanding.	
Letters of Credit Outstanding	6,151,280.54
Financial responsibilities undertaken on behalf of customers (see off-setting amount [x] in "Resources").	
Other Liabilities	10,642,442.25
Items which do not come under the foregoing headings, including \$9,000,000 advances from the Dominion Government under The Finance Act	
Total Liabilities to the Public	692,218,818.45

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits and Reserves for Dividends	76,317,090.20
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$768,535,908.65

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 78,683,217.88
Notes of and Cheques on Other Banks	26,953,876.82
Payable in cash on presentation.	
Money on Deposit with Other Banks	25,334,859.87
Available on demand or at short notice.	
Government and Other Bonds and Debentures	316,967,375.69
Not exceeding market value. The greater portion consists of gilt-edge securities which mature at early dates.	
Stocks	514,911.33
Railway and Industrial and other stocks.	
Call Loans outside of Canada	36,354,280.98
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing moneys quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	7,607,169.32
Payable on demand and secured by bonds and stocks of greater value than the loans.	
Bankers' Acceptances	111,293.01
Prime drafts accepted by other banks.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	492,526,984.90
(Equal to 71.15% of all Liabilities to the Public)	
Other Loans	251,885,262.61
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Three properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate	1,732,750.77
Acquired in the course of the Bank's business and in process of being realized upon.	
Customers' Liability under Letters of Credit	6,151,280.54
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not included in the foregoing	1,739,629.83
Making Total Assets of	768,535,908.65
to meet payment of Liabilities to the Public of	692,218,818.45
leaving an excess of Assets over Liabilities to the Public of	\$ 76,317,090.20

ALBERTA NEWS BULLETIN

Issued by Publisher, Commissioner, Government Buildings, Edmonton, Saturday, November 25, 1933.

NOTABLE VICTORIES AT TORONTO

The first three days of judging at the royal winter fair at Toronto this year have already brought this province notable victories in both grain and live stock. One of these was the winning of a first prize and reserve championship by Jos. Hargerty of Olds, with a four-year-old Clyde gelding in a class in which he had stiff competition from recently imported stock. With the same animal he took third place in the special class for farm-owned animals, in a line-up of thirty entries.

Another fine record is also being made this year by the two exhibitors in Holsteins, Hays and Co. of Calgary, and the C. P. R. farms at Strathmore. Last year, these two exhibitors rallied the support of numerous competitors from the older parts of the continent by sweeping the boards in a number of classes. On Thursday the C.P.R. farm won top place in the class for aged cows not in milk with their entry "Wayne Sylvia." This eight-year-old cow beat a famous female from the Maytag farms in Iowa. Hays and Co. had tenth in the same class. In a very stiff class of Holstein senior bull calves, Hays and Co. won a first on Hay's "Aristocracy." In the three-year-old bull class, Hays and Co. came third and the C. P. R. fourth. Of the first ten bulls in this class, five were bred in Alberta.

Alberta is also in the front rank again at Toronto with its poultry exhibits. In Turkey, there were 12 entries, and nine of which is Alberta's special feat, prizes have been taken, including two firsts, one by the late entry of agriculture in young hens, and one by Miss Elsie Macdonald of Olds, Mrs. F. Macdonald of Olds, Mrs. F. Macdonald of Olds, and Mrs. F. Macdonald of Olds.

Other winners in turkeys were Mrs. C. G. Keston of Telford, Mrs. Macdonald of Olds, Mrs. F. Macdonald of Olds, and Mrs. F. Macdonald of Olds.

In the grain section Alberta has done equally well. The Canadian grand championship and first prize in spring wheat went to the Smith farms at Lethbridge, and first place in registered spring wheat went to Hadlington Bros. of the same place. Andrew Giffen of Okotoks won first in two rowed barley, and other notable winners in wheat were Wm. Rigby of Wembley, Stephen Harrington of Marwayne, Peter Rock of Morrin, J. Heffernan of Grainer, and Mark Beards of Vauxhall. In oats Mr. Rock was second; L. C. Anderson, Bittern Lake, third; Nels Linden, Wetaskiwin, fifth, and the Lethbridge Northern Irrigation District, seventh. A. Griffin of Brooks scored a second in six-rowed barley in the same section, while Lister Ball of Edmonton, got a second in white oats.

In the clover and grass seed classes, all the important prizes came to Alberta, with W. J. Bryant of Boyle at the top in every clover, D. Dehl of Dachs in alfalfa, S. Harnup of Hualien in bromegrass, and A. M. Smith of Wembley in western red grass.

In the junior pig club classes, the youngsters from Alberta just about swept the boards. In wheat, first place went to Saskatchewan, but this was followed by a long string of wins from Alberta, with Jos. Kallal of Telford second; his brother Edward third; Peter Sebastian of Wembley, fourth, and his brother Paul fifth; Jos. Schultz of Ashbasca, sixth; Geo. Ghul of Stony Plain, eleventh, and Wm. Rigby of Wembley, fourteenth. In oats, medium or late, Arthur Pethybridge of Tees was first; Carl Luger of Oshawa was second; Jos. McLellan of Canby Creek seventh; Keith Aeron of Pears eleventh, and David Silver of Huxley, twelfth.

RURAL PARKS

The possibility of establishing pleasure grounds and parks in those rural municipalities

which are fortunate enough to have lakes or rivers within their boundaries, became a live topic at the convention of rural municipal districts when Hon. R. G. Reid, minister of lands and mines, called the attention of the rural councillors to the offer made by the provincial lands department to reserve land for this purpose along lake or river fronts, where such land happens to be owned at present by the government. Several such reservations have already been made by a number of rural councils. The land is granted on a long lease at a nominal fee.

CHILLED BEEF SHIPMENT

A interesting angle on new trends in live stock marketing is given by the announcement that the first shipment of chilled beef to leave Western Canada for the British market went forward from Winnipeg last week. This shipment was a substantial one, and its reception will be watched with interest.

CLOSED SEASON FOR FISH

Closed season is now in effect for both whitefish in Alberta lakes, and for angling in the various rivers and streams of the province, and infractions of the regulations in this connection are being firmly dealt with, declared Hon. R. G. Reid, minister of lands and mines. Several convictions have already been recorded. "It is of first importance that the seriousness of such infractions should be emphasized," said Mr. Reid. "There is a very definite reason for a closed season, and that is to protect the fish during the spawning season, and consequently to insure a continuance of the supplies of the fish in our lakes and streams. Were there no closed season, the supplies would very soon be depleted."

ALBERTA'S RHODES

SCHOLAR

Alberta's Rhodes Scholar for 1933 is R. L. D. Fenerty, son of a prominent barrister at Calgary. He will take up residence at Oxford in October, 1934.

100-YEAR OLD ALBERTA

PIONEER

Andrew Sibbald, Alberta's first school teacher, attained the age of 100 years on November 19, and at his home in Banff was the recipient of many congratulations, including messages from Premier Bennett and Premier Brownlee and Lieutenant-Governor Walsh. Mr. Sibbald came to this territory 58 years ago.

Routine matters occupied the time of Priesthood meeting on Sunday. Due to the cyclonic wind the attendance was rather smaller than usual.

News Notes

Messrs. Flynn and Ralley of the Safeway staff were in Raymond on Monday.

WILL TRADE—Potatoes for chicken feed. Inquire at the Recorder Office.

A \$4,000,000 California fire over the brush area, was brought under control Friday. No loss of life or homes is reported.

Mrs. Don Wall has been very ill for the past week, but her friends will be glad to know that she is improving now.

The exceptionally high wind on Sunday was very disagreeable and resulted in considerable damage in the town and district. Haystacks were losing their tops in many directions.

Not satisfied with its drive-in grocery stores, Los Angeles now has a food store in which customers take seats and select goods from moving shelves that pass before them. Next!

Coal oil lights, candles, gasoline lamps, and various other means of illumination were in evidence on Broadway Monday night, in the premises where it was impossible to get the lights hooked up for the evening.

"Poley" said he had more time to repair and blow up Monday forenoon when he was using a hand pump, than he had in the same length of time since last summer. His arm is sore yet from the exercise.

Renaun Pack was helping R. W. Tollestrup, Waldo Tollestrup and Carl Wilde on Tuesday finish up the repairs on the block of line on Broadway, wrecked when the roof off the O. H. Snow block came over the side walk.

T. K. Roberts had the contract for the repairs on the Snow block, and had a big crew of men at work. Milton Strong did the repairs to the brick chimneys, the back wall of the store room, and some of the work, which included 3 or 4 brick facings around the top of the block.

PROVINCE OF A NEWSPAPER

It would be comical, were it not somewhat pathetic, the way newspaper offices are beset by their friends, urging them to "roast" this and that; to "see to it" that this and that is corrected; to have this or that done in the city or county. These friends actually appear to believe that it is the newspaper's business to handle all these affairs.

But a self-respecting newspaper, though ready and willing to carry all reasonable responsibility, must remind its readers that they too have a responsibility.

A self-respecting newspaper tries to report the news of what actually happens, not what it might wish had happened. The paper to the general public is not always understood. It is the duty of a newspaper to be in a position to support any good act and criticize any bad act of public policy.

This relationship cannot exist where favors are asked and granted. Honesty is the only policy for a newspaper.

If objectors don't like the way things are going, they should qualify as voters, and then raise Cain about it.—Kitchen Record.

WINTER SHELTER FOR PIGS

(Experimental Farms Note)

Experiments conducted at the Experimental Farm, Indian Head, show conclusively that expensive winter shelters for swine are unnecessary.

A test was conducted at this farm to determine the comparative merits of different shelters for fall pigs. The farm piggery, a small gable-roofed cabin well banked with straw and a rough shelter constructed of poles and straw were used for the test. The same meal ration was supplied to all lots. Higher daily gains were produced by both lots of outside pigs than by the lot housed in the piggery. The cost per pound gain was also lower for the outside lots. A second test gave similar results.

At the Experimental Farm breeding sows and boars are wintered outside in small cabins covered with straw. The cabins are cleaned frequently and kept well supplied with bedding to insure dryness. In severe weather bran sacks are hung over the doors to prevent excessive drafts as well as to help maintain a higher temperature inside the cabins. Care is taken to prevent overcrowding of pregnant sows.

News Notes

A caterpillar was seen in Raymond on Sunday appearing to enjoy the spring like weather we have been having.

Jack Mehew's big electric sign blew down, and was damaged so badly that he is afraid it cannot be used again.

David Laurie thinks one certainly earns their money when they have to turn the blower by hand, as he was industriously doing on Monday and Tuesday until the middle of the afternoon. Jack Mehew was also without power in his shop, and he and "Joe" were trying to get their work done by hand, but it was some job.

A story with song and gaiety and heartbreaks. "Broadway Thru a Keyhole" at the Capitol Friday and Saturday.

Primary Conference was held in the two Raymond wards Sunday evening, with crowded houses in both wards, and a very interesting program presented by the children, consisting of readings, speeches and songs. Members of the Stake Board were present in both wards.

Lynching took three lives in the United States this week; two confessed kidnappers were lynched in California, and in Missouri, a nineteen year old negro convicted of an attack on white women, was mobbed and lynched, and his body soaked in gasoline and set fire to.

A Foundation for Goodwill

There is a very solid foundation for the goodwill that prevails toward United Grain Growers wherever the sign of this company appears on an elevator throughout western Canada.

It rests on many years of useful service, and a long demonstration that this company not only desires to take care of the interests of its farmer customers, but it has the organization, the equipment, the resources and the experience which enable it to do so.

Whether in selling grain or in buying farm supplies it is sound business to deal with this Company.

ELEVATOR AT RAYMOND

News Notes

Mr. Palmer, was here Monday and Tuesday completing arrangements for the dance Monday, when Mart Kenney and his boys will play.

Because of the Raymond A. A. dance Monday night, the Board of Trade meeting has been postponed until Monday, December 11th. A special program is being arranged.

Miss Lenore Scoville, who is teaching school at Kimball, spent the week-end at home with her parents and family.

Lee Brewerton has been away on a week's business trip to Salt Lake City and intermediate points. He is expected back this week.

Melvin and Bert Godfrey, of Godfrey's Groceries of Magbeeen postponed until Monday, Rath and Cardston respectively were Raymond visitors on Wednesday for a little while.
